SUMMARY

BS in Cybersecurity and IT Infrastructure professional with 4+ years of experience in penetration testing, Red Team operations, vulnerability assessment (VAPT), network and systems administration, & security operations. Currently serving as IT Asst. Manager at Toyota Royal Motors, managing 50+ network devices and 70+ workstations, improving uptime by 10% and resolving 50% of IT issues within 24 hours. Skilled in Python-based security tool development, network, server/system administration, cybersecurity operations, with teaching & training 3k+ students.

SKILLS

- ❖ IT Infrastructure Management
- ❖ Networking & System Administration
- ❖ Vulnerability Assessment & Management
- ❖ Analytical Thinking, Problem-Solving, Strategic Research & Rapid Self-Learning
- ❖ Red Team Operations
- ❖ Penetration Testing (Web, Mobile, Wireless)
- ❖ Custom Security Tool Development
- ❖ Malware Analysis, Programming & Scripting (Python, Bash)

WORKING FIELDS / PROFESSIONAL DOMAINS

IT Infrastructure & Support | IT Management | Cybersecurity | Network & Systems Administration | Penetration Testing & VAPT | Security Operations | Technical Support | Cybersecurity Training | Computer Lab Instructor | QA Analyst | VA

EDUCATION

- ❖ BS Cyber Security | Islamia University of Bahawalpur (RYK-Campus)
FYP: Portable Wi-Fi Deauthenticator System | CGPA: 3.5/4 | (10/2020 - 10/2024)
- ❖ F.Sc. Pre-Engineering | Higher Secondary School Kot Samaba (09/2018 - 09/2020)
- ❖ Diploma in Pharmacy Technician Category B From PUNJAB PHARMACY COUNCIL.

EXPERIENCE

- **IT Asst. Manager | Toyota Royal Motors, Rahim Yar Khan (Mar 25)**
 - Managed IT infrastructure, wired/wireless networks, SQL-based Windows servers, NAS, routers, end-user devices, 3 network environments & implemented backup & disaster recovery procedures also Implemented VNC for centralized support.
 - Provided technical support for desktops, laptops, printers, and scanners; also coordinated with vendors on system upgrades and customizations.
 - Conducted IT Training and Cybersecurity awareness sessions; Managed IP-based CCTV and surveillance systems, including NVR configuration.
 - Administered Google Workspace, including user provisioning, permissions, groups, policies, and security settings; Managed employee attendance and timekeeping (Time Office), including policy enforcement, leave management, and reporting.
 - Managed organizational social media activities, digital marketing, content creation, video editing, and designed professional graphics & digital content to support communication, branding & organizational visibility.
- **IT Assistant | Chaudhry Sugar Mills Ltd (Sep 2024 – Mar 2025)**
 - Led network and system upgrades across 3 weighbridges and 70+ workstations, resolving 50% of IT issues within 24 hours and improving uptime by 10%.
 - Provided technical support of IT infrastructure, wired/wireless networks, switches, routers, Windows administration, Active Directory domain joining & Group Policy

support, peripheral support, HP LaserJet printers, scanners, workstations, including hardware diagnostics, cartridge troubleshooting & maintenance.

- Supported Windows, pfSense, MikroTik, Fortinet, NETGATE Firewall; Documented system configurations, incidents, & resolutions to support efficient troubleshooting.

- **Internship Trainee | ITSOLERA PVT LTD (Jun 2024 – Sep 2024)**

- Conducted Web Application Penetration Testing & Vulnerability Assessments.
- Documented security findings, risks, and remediation recommendations while leading Team Zeta in Red Team exercises and security testing activities.
- Developed Python and Bash tools and scripts for OSINT, metadata extraction, reconnaissance, and security analysis automation; utilized industry-standard cybersecurity tools for penetration testing and security assessments.

- **Prodigy InfoTech | CodeAlpha | DevCastle | BiuiltinSoft** :

Developed Python tools: image encryption, packet sniffing, & keylogging;
Managed IT, computer labs, & office administration for a software house.

- **Course Instructor | Udemy (2021 – 2024)**

Developed and delivered 30+ hands-on CEH v11 training modules and virtual labs for 1,000+ students, covering reconnaissance, vulnerability assessment, SQL injection, network sniffing, DoS attacks, and wireless penetration testing, with an emphasis on practical techniques and real-world security scenarios.

TECHNICAL SKILLS:

- **Cyber Security:** Penetration Testing, VAPT, Red Teaming, Vulnerability Analysis, Digital Forensics, Incident Response, Malware Analysis, OWASP, WAPT.
- **Security Tools:** Metasploit, Nmap, Nessus, OpenVAS, Wireshark, Recon-ng, Aircrack-ng, Hashcat, Splunk, Microsoft Sentinel, CrowdStrike Falcon, Wazuh, Ghidra.
- **Networking & Systems & Programming:** TCP/IP, VLANs, VPNs, DHCP, DNS, Firewalls, Load Balancers, 802.11, Windows, Active Directory, Group Policy, Linux, macOS, Python, PowerShell, Bash, Exploit Scripting, Custom Security Tool Development.
- **Cloud & Virtualization:** AWS, Azure, Google Cloud, VMware, Hyper-V, Containers
- **IT Operations:** Backup & Disaster Recovery, Acronis, IT Support & Troubleshooting.
- **Other Tools:** Git/GitHub, VS Code, Android Studio, Microsoft Office; Cryptography, Blockchain Security, Machine Learning & AI for Cybersecurity.

KEY ACHIEVEMENTS / POSITION OF RESPONSIBILITY

- ❖ **Invited as Cyber Security Panelist & Speaker | BZU Multan CIT Conference (Aug 2026) Selected by Center of information Technology Head Office Islamabad:**

Delivered expert insights on AI-enhanced threats, Quantum Computing risks in (hash/password cracking), strategies for building proactive human firewalls to strengthen regional digital defense infrastructure across South Punjab.

- ❖ **Led Team Zeta in Red Team operations and security assessments, reviewing findings, recommending remediation actions to improve assessment outcomes.**

- ❖ **Teaching Assistant | NAVTTC, IUB-RYK Campus (Mar 2022):** Facilitated a NAVTTC sponsored cybersecurity program by delivering hands-on training in VAPT, network scanning, system exploitation, and malware analysis; mentored 50+ students in effective use of cybersecurity tools, practical techniques, real-world security practices, & hands-on security assessment methodologies.

PROJECTS

- ❖ **Network Reconnaissance & Vulnerability Assessment Framework:** Developed a Python-based security assessment tool integrating Nmap, Masscan, and OpenVAS

for network discovery, port/service enumeration, vulnerability scanning, DNS reconnaissance, CMS detection, HTTP header analysis, and security reporting.

- ❖ **Portable Wi-Fi Deauthentication Testing System (FYP):** Engineered a low-cost, portable penetration testing device using NodeMCU ESP8266 to scan IEEE 802.11 wireless networks, simulate controlled client deauthentication, and assess Wi-Fi security configurations in authorized testing environments.
- ❖ **Zeta Metadata & OSINT Extractor:** Developed a Python tool to extract metadata from PDF, DOCX, and image files for OSINT and digital investigations.
- ❖ **User Finder Zeta – OSINT Tool:** Developed a Python-based OSINT tool to find usernames, email accounts across online platforms & generate investigation reports.
- ❖ **Python Network Packet Sniffer:** Built a Python and Scapy-based packet sniffer to capture, analyze, log, and export network traffic.
- ❖ **AI Video & Image Watermark Remover Pro:** Developed a Python GUI application using Florence-2 and LaMA for automated watermark detection and removal.
- ❖ **Live Proxy Detector:** Developed a multithreaded Python tool to scan and identify active proxy servers during reconnaissance.
- ❖ **Live Website Detector:** Developed a Python tool to check website availability and identify live targets during reconnaissance.

CORE COMPETENCIES

- Teamwork & Collaboration
- Leadership, Team Coordination & Good Judgment
- Attention to Detail & Accuracy
- Responsibility & Accountability
- Organizational & Time Management
- Multitasking & Prioritization

DIGITAL SKILLS

- Microsoft Office, Word, Excel, PowerPoint, Advanced Excel, Data Entry & Analysis; VS Code, Canva
- IT Operations: Windows/Software Installation, Scanning, Printing.
- Communication & Collaboration: Email, Zoom, WhatsApp Groups, Meeting Scheduling, File Sharing
- Video & Media: YouTube Channel Administration, CapCut, InShot,
- Google Workspace: Gmail, Docs, Sheets, Google Meet, Google Scholar, Google Earth & Scheduling Executive's Meetings
- AI & Productivity: ChatGPT, Google Gemini, Grok, Kimi, AI Deep Research & Prompt Engineering, TranferNow
- Creative & Design: Canva Pro, Adobe Photoshop, Adobe Illustrator, Video Editing, Photography, Retouching
- Deep Research & Documentation

Certifications

- Certificate In Cyber Security (From NAVTTC Govt. 03/2022 - 12/2022)
- Offensive Penetration Testing (From Cybrary.com)
- Ethical Hacking Essentials (From Code Red EC-Council)
- Mobile App Security (From Cybrary.com)
- Certified in Cybersecurity (CC) Self-Paced Training (From (ISC)²)
- CRISC: Certified in Risk and Information Systems Control (From Cybrary.com)
- Microsoft Word (From Eduonix)

Languages

- English
- Urdu
- Punjabi
- Saraiki
